THE NORTH SIDE STRIKERS MEET. Chicago, Ill., Oct. 10 — The striking North Side carmen had a secret meeting last night. The committee, which con-terred with President Yerkes, reported and its action was approved. It was resolved to invite no further conferences with Yerkes. After the secret session there was a public meeting.

SYMPATHY FOR THE STRIKERS. The S:amens' Benevolent Union has adopted resolutions expressing sympa-thy for the strikers and offering aid S me of the men who came here from Pai adelphis, and have since gone over to the strikers, claim the situation was misrepresented to them, that they understood they were to be employed on a new cable line and not that they were to take the strikers' places. They profess to have left good places in Paliadelphia and express themselves as very angry at the treatment.

ACTION OF THE KNIGTS OF LABOR. The Knights of Labor council, in waich are represented all the Kuights of Labor in Cook county, at a meeting last evening adopted resolutions endorsing the action of the striking street car men and promising them moral and financial support.

THE MATTER OF ADJOURNMENT. Sp cial to the Gazette.

Washington, Oct. 10 .- Some of the Republicans in the House are getting very restive over the prospects ofis contionous session of Congress and the thoroughfore of the north division along fection of Mr. Toylor of Onio yesterday in which most of the cars run. Between objecting to the consideration of any measures in the House except appropria-tion bills, is construed by the Democrats to mean that an adjournment is near at to mean that an adjournment is near at nand, but they are determined a resolution for adjournment shall not originate in the House. Mr. Farquhar of New York, a prominent Republican, is coroughly disgusted and thicks of preparing an adjournment himself, and says he is not afraid for his party to make such & move. He spoke to Mr. Brecken-ridge on the subject, but the latter asked him to wait swhile. Fatquhar says he has talked with members of both national committees in New York, and they are equally annoyed by the failure of Congress to rej urn. There was not so much agitation about adjournment about the Sanate to day as on previous occasions, but the subject is still discussed. Senator Herris thinks Congress will quit next week. Everything depends upon the House. If that body will offer a date it will be accepted by the Senate. The Re-publican Senators freely admit they are willing to soj ourn, but the Democrats of the House who visited the S nate to-day offered no encouragement to those looking for a dismission of Congress. They say that the sentiment among the majortty of the House in favor of adjourn. ment is not as strong now as it was a week ago.

TRYING TO MAKE CAMPAIGN LITERATURE. Washington, Oct. 10 - Senator Hale to-day submitted to the Senate the report from the special committee to examine into the present condition of the civil service. The report makes a printed document of fly pages. It discusses elaborately the testimony taken in New York, Pennsylvania and elsewhere, and concludes with the following general summary:

The investigations made by the commiltle and the facts therein brought forta established certain things beyond controversy.

1. That partisan changes have been made in federal offices in a wholesale way under no pretense that the good of the public demanded such charges. In most marked instances, as in Polladelphia, timore, indisaspolis and New York. these changes have been followed by scandais in the public service, which has been endered less efficient by real on of these charges.
2. That federal efficials throughout

the country contrary to the directions of the President, as found in his letter of July 14, 1836, have freely and openly pardelipated in politi al conventions and primary election movements using their efficial influence. In Poursylvania the machinery of the federal service was put in operation for the purpose of controlling Democratic organization in the interest of administration forces as against tie friends of Mr. Rindall. The state com nittees were dominated and controited by the federal off isle and the chairmanship of the state committee was bestowed by the administration upon a member of the committee who changed ats sitegiance from Randall to the President. In no case d e) the committee dad that any federal (Miler has been dis ciplined for such interference in politics; but on the other hand, such interference has been repeatedly recognized and re warded. This interference in sums cases. netably at Binghampton, N Y, was most offensive to the people and amounted to a conspiracy to defeat the popular will. The system of levying tolls and assessments upon federal foffice notices for political purposes has continued withou; interruption since the adminis. tration came into place. The committee is persuaded that at present throughout the country officeholders are being generally assessed and called upon to contribute from their salutes to swell
